Hor D'Oeuvres and Refreshments Served

New Fixed, Non-Removable Teeth in One Day*

- Are you suffering with teeth that are failing?
- Do you have only few healthy teeth remaining?
- Are you tired of the daily challenges and repeat expenses associated with removable dentures?
- Do you dream of being able to eat a normal diet and smile in family photos?

If you said yes to any of these questions, than this treatment may very well be the answer for you!

*also known as 'All-on-4®' or 'Pro-Arch' treatment. It replaces your missing teeth with a full fixed, non-removable dental bridge supported by dental implants. These are not dentures—they stay in your mouth the whole time, and look and function like natural teeth. More importantly, **the procedure can be completed in just one day**, including any teeth extractions that you may need, placement of dental implants, and attachment of a dental bridge to replace your teeth. No additional bone grafts needed. Procedure can be done while you are a sleep.

Find out if 'Fixed, Non-Removable Teeth' are the right solution for you or someone you know.

Seating is limited.

RSVP at (951) 302-9100 or info@temeculafacialoralsurgery.com before April 20th, 2016.
