## **Christopher Kiernan Patient Testimonial 11/13/2017**

**Due Diligence:** I shopped and compared several different places. Loma Linda University, Clear Choice and Cunning Dental. Out of all of these places I found that Dr. Dmitry offered a superior option than the others. He has a wealth of experience doing battlefield reconstruction so my little all on 4 procedure was no sweat for him. Price was absolutely reasonable. Technology is cutting edge and his staff is excellent. The key word here is Technical Expertise which he has in abundance.

**Procedure:** I had two procedures done. The 1<sup>st</sup> (Upper) was November 3<sup>rd</sup> 2017 and the 2<sup>nd</sup> (Lower) was on November 10<sup>th</sup> 2017. On both occasions I was treated with the utmost care. They were both painless and happened within the blink of an eye. As soon as the doctors and staff were finished hooking me up to the equipment, it was all over and time to go home. YAY!

**Anxiety:** I had fear. Not just fear but an anxiety that would keep me up at night and not let up. I could not get my head around the procedure itself. What it entails and how much it's going to hurt and so on. Let me be very clear, I had no pain at all when I woke up. No memory of the procedure. It happened truly in the blink of an eye. I hereby attest to that fact. Furthermore, I give Dr. Dmitry (Temecula Facial and Oral Surgery) permission to give you my contact information if you are experiencing that kind of fear, I am willing to share with you the amazing job that they did for me.

**Anesthesia:** I was lucky enough to get Dr. Andrew as my anesthesiologist. This guy took the best care of me. I have the utmost respect and gratitude for the way in which he made me feel comfortable and at ease for both procedures. He is top notch in his field, knows his stuff and genuinely committed to your care. In addition I must say, I think he is one of the kindest people I have ever met in my life.

**Healing:** On a scale of 0-10, 0 being no pain and 10 being agony, At the most a discomfort level of 3. Then I take a Norco and an Ibuprofen and I'm back down to 0. I have not had much in the way of swelling (minor at best). 99% of the time it's absolutely no pain with the minor discomfort of 2-3 between pills. Truly no big deal.

**Overall Experience:** I am truly grateful for my beautiful smile that Dr. Dmitry and his staff at Temecula Facial and Oral Surgery have given me. I can't express enough appreciation in this letter to convey what a difference they have made in my life. I would recommend this organization to you. I am so thankful for what they have done for me.

**5/5 STARS**

Sincerely,

**Christopher Kiernan**
